FUNGICIDE

PP Captan® 80 WG

Trusted Scab Protection.

80% w/w Captan

Water Dispersible Granule (WDG)

PCS. 04018

Pack size: 10kg

PP Captan 80 WG is a broad spectrum, multi-site fungicide with excellent preventive action, that belongs to the phthalimide class of fungicides. It is used to control scab on apples and pears. Aside from the fungicide activity, it also makes fruits appear healthier by boosting brightness and colour.

Mode of Action

Captan is a non-specific thiol reactant with protective action that works by inhibiting respiration of numerous species of fungi. This makes it impossible to produce energy. Ultimately, captan reduces fungal spore germination, growth, and oxygen uptake and this process leads to death of the fungi.

Captan controls fungi by:

- Reducing sporulation by inhibition of enzymatic activity.
- Inhibiting respiration by interfering with electron transport
- Fatality by release of thiophosgene.

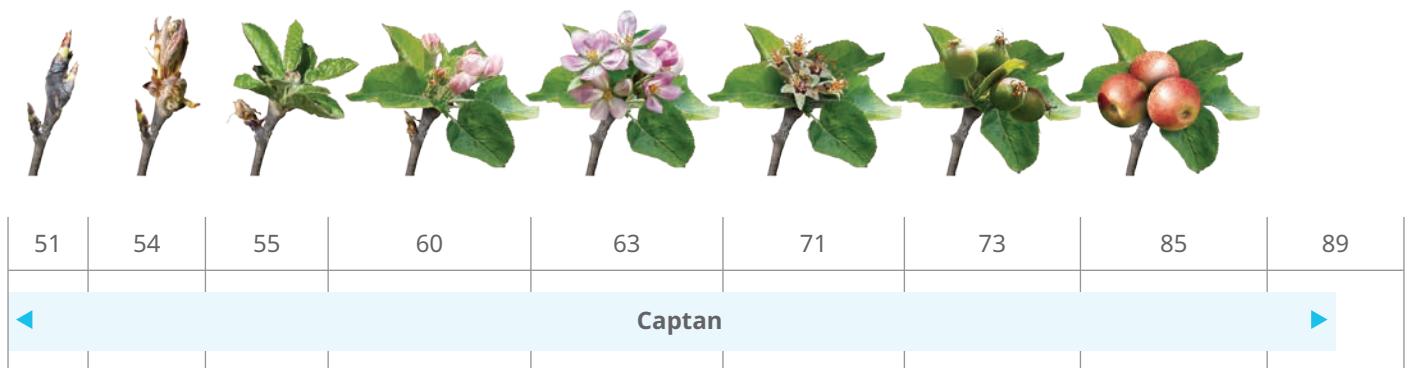

Captan on Apples and Pears

Captan is used widely by farmers on apples and pears due to the multiple advantages that it provides:

- ✓ Excellent preventive action
- ✓ Rainfast after two hours; penetrates the plant tissue
- ✓ Suitable for use in IPM
- ✓ Can be applied on wet surface
- ✓ No loss of efficacy at low/high temperatures
- ✓ Residue-tolerances fixed worldwide
- ✓ Multi-site mode of action ideal for resistance management
- ✓ Physiological effects on the color of the fruits
- ✓ Harmless to beneficial insects
- ✓ The most popular fungicide against apple scab in the world

Application

Dose rate	2kg/ha
Interval	10 days
Mode of use	Preventive
Max. no applications per year	10
Timing	Apply at bud burst and repeat at 10 day intervals
PHI	31 days

Farmer Benefits

Broader window of application

compared to other fungicides

Convenient solution for the farmer

Peace of mind

Useful tool for resistance management

Ideal partner for SDHIs, triazols, strobilurins

Independent of the weather conditions

Safe to use on different stages of the crops

without phytotoxicity symptoms

Easy for the farmer to apply

no worries for clogging and foaming

Fits IPM programmes
